

# TRANSTECH ENERGY

## LPG & NGL STORAGE SOLUTIONS

TransTech Energy offers comprehensive design, engineering and construction services for industrial energy applications requiring LPG storage, vaporization, and synthetic natural gas (SNG) systems throughout the Americas and Caribbean.

You can rely on our industry leading experience providing turnkey bulk LPG storage solutions to meet your system needs and requirements. Partnered with the most respected and trusted manufacturers of vaporization and SNG equipment, we deliver safe, reliable solutions for your energy needs.

### LPG/Propane, SNG Applications

- Standby Systems—as a backup for intermittent or unreliable natural gas service
- Base Load Systems—where LPG will be used as the primary fuel source
- NG/LNG Bridging—as a substitute or “bridge fuel” for areas where natural gas is not available, but may become available in the future
- Peak Shaving System—to control and reduce the cost of natural gas during peak demand times

### TransTech Energy Solutions:

- LPG/SNG Standby Plants
- Peak Shaving Facilities
- Industrial Fuel Conversions
- LPG Combined Heat & Power (CHP) Solutions
- Distributed Power Generation Solutions
- Startup, Commissioning and Ongoing Maintenance

### LPG Storage, Engineering & Construction Services

- LPG Storage Tank and Equipment Sales
- New Tanks & Custom Tank Fabrication
- Storage Plant & Terminal Design-Build
- LPG Vaporizer & Blending Systems
- High Pressure LPG Gasification for Gas Turbine Applications
- Installation and Integration Services

Backed by over 50 years of experience, our team consists of some of the most knowledgeable engineers and technical personnel in the industry—all ready to assist you with your next project. Contact us today to learn more - 888-206-4563
