

USED 88,330 GALLON STORAGE TANKS

Location: Evanston, WY

Price includes loading of equipment at origin location. Tanks were in NGL service, U1A's and original drawing packages are available. Tanks will be fully disconnected, openings sealed, sheeting and insulation removed prior to loading. TransTech can provide a price for a complete exterior refurbishment at the project site. Tanks are ship ready.

Year	MFG	Capacity	PSI	Serial Number/National Board
